

*Located in an area known as « Moriond l'enseillé », one of the forerunners for winter sports in Courchevel, the hotel boasts a large terrace which enjoys exceptional levels of sunshine. A veritable sun trap from dawn to dusk, this location is the envy of other areas within the resort. Manali hotel offers direct access to the ski slopes.*

*The immediate proximity to the French Ski School (ESF), means that children get the very best tuition and really learn to make the most of the joys of winter sports. Parents can really relax too, content in the knowledge that they can ski with their older children, whilst leaving the younger ones in the safe hands of the hotel's professional child-care team.*
