

*select-seychelles was launched in July 2007 with an aim to offer a fresh and different approach to destination management services in the Seychelles Islands, with first class service dedicated to meeting individual customer needs. No effort has been spared in assembling a team of the finest and most efficient on the islands. The ethos, strategies and goals of select-seychelles are not inspired by aspirations of market share leadership. Rather, they intend to seize the opportunity to refine and maintain a friendly, responsive and effective service with a distinctive and fresh approach. Rest your visit to the Seychelles in good hands...*

distinctive...attentive...dedicated
